

# Joint Humanitarian Update

NORTH EAST | SRI LANKA

**JAFFNA, KILINOCHCHI, MULLAITIVU, MANNAR, VAVUNIYA AND TRINCOMALEE DISTRICTS**  
**REPORT # 25 | 24 APRIL – 21 MAY 2010**

## I. SITUATION OVERVIEW & HIGHLIGHTS

**Table 1: Displacement after April 2008**  
**IDP situation as reported by the Government Agents as of 20 May 2010**

IDPs	
During the period 1 April 2008 to 20 May 2010	
Vavuniya camps: 60,900 <sup>1</sup> Jaffna camps: 3,193 <sup>2</sup>	<b>64,093</b> people are accommodated in temporary camps.
RELEASES & RETURNS	
Releases and Returns: As of 20 May 2010	<b>236,755</b> people have been released or returned in Vavuniya, Mannar, Jaffna, Kilinochchi, Mullaitivu, Trincomalee, Batticaloa, Ampara, Polonnaruwa and Kandy.  In place of origin: 142,772 With host families: 92,791 In institutions: 1,192

### *Return update*

- Approximately 20,600 IDPs were released / returned during May mostly from Menik Farm and, to a lesser extent, from host families. As of 20 May, 60,900 IDPs await resettlement in Menik Farm.
- Humanitarian actors continue to support the Competent Authority for IDPs to determine the mine contamination status of proposed return locations. Some IDPs are accommodated in secondary transit centres until the completion of demining operations allow for access to their lands. Advance notice of return movements assist IDPs in Menik Farm to make preparations for their return.
- Local administrations have adopted different arrangements for IDPs from host families returning to their places of origin. IDPs travel from Vavuniya District to Mullaitivu District in organized convoys, allowing authorities to receive them and check documentation. Returnees to Kilinochchi District find their own transport to the Central College transit site, where registration and onward movements to villages are organized.

### *Menik Farm: Zone 6A to be closed down*

- Most of the IDPs in Zone 6A have been resettled or transferred to Zones 0 and 1. The remaining 97 families in Zone 6A are due to be transferred to Madhu soon. The 6A Zonal Commander has requested agencies to decommission the onsite Child Friendly Spaces and temporary medical facilities.

### *Resettlement coordination*

- On 11 May, the Kilinochchi Government Agent (GA) convened the first resettlement coordination meeting in the district with relevant government departments, humanitarian and early recovery agencies. Participants discussed proposals for the construction of approximately 730 semi-permanent transitional shelters. The

# Joint Humanitarian Update

NORTH EAST | SRI LANKA

Department of Probation and Child Care Services and the Ministry of Social Services and Social Welfare will be part of future deliberations to address protection concerns related to vulnerable returnees, such as single women-headed households, unaccompanied minors, the elderly, disabled individuals and others.

*Returnee farmers require water pumps*

- Farming families identify water pumps as their most pressing need to restart agricultural activities. A total 100 families in each district have received water pumps from the government. Additional equipment will be provided at a 50 per cent subsidized rate. FAO will complement through provision of 500 water pumps and explore the possibility of providing more through the recently approved Central Emergency Response Fund (CERF) grant.

## II. Sector Overviews & highlights

### Shelter / NFI

*In the Vanni return areas:*

- The government is working to replenish stocks of tin sheets, which had been distributed to returning families as immediate shelter assistance. Shelter partners supported local authorities with material, including 5,000 tin sheets, for distribution to returnees as a bridging measure. Also, returnees in Vavuniya North District Secretariat (DS) division and Kilinochchi District received approximately 1,745 Emergency Shelter Kits (ESKs).
- Agencies are advocating for the adoption of a 'CORE' housing strategy to complement activities by the North East Housing Reconstruction Programme (NEHRP), UN-HABITAT, UNDP and other partners, which address permanent housing needs in the return areas. At approximately SLR 150,000 per unit, a CORE house costs 50 per cent less than the currently approved permanent housing design. Consisting of two lockable rooms with an extended foundation, a CORE unit has the advantage of allowing beneficiaries to expand the house when funding becomes available at a later date.
- The Mullaitivu GA office has highlighted the need for more actors to undertake transitional shelters and permanent housing for returnees. The Mullaitivu District Action Plan projects shelter assistance requirements for approximately 28,500 families based on 1981 census data. At the moment, shelter agencies operating in Mullaitivu District have resources to construct approximately 6,500 shelters/houses. Local authorities and agencies are re-evaluating shelter needs, given that returns to the Manthai East and Thunukkai DS divisions have already exceeded Work Plan estimates.
- Returnees are receiving eight bags of cement per family, from a donation of 400,000 cement bags by the Indian Government. Families have been advised to put up shelters within two-three weeks of receiving the cement bags, although the most vulnerable families will require support for this task. Also, returnees need advice on how to store the cement to prevent deterioration due to the humid conditions. Shelter agencies have suggested that steel blocks be made available to allow families to start casting the cement into bricks.
- Most returnee families from Menik Farm receive the core NFI return kit and tool kit at the transit sites in return areas within three days of their return. Returnees from host families will receive NFI after verification by government authorities, as some have already received the assistance. The NFI sector is working to strengthen cooperation with partners to ensure that NFI distributions reach a wide beneficiary population without overlaps.

*In Mannar District:*

- On 3 and 4 May, nearly 300 returnee families in Manthai West DS division received the return form to access the UNHCR shelter cash grant.

*In Vavuniya District / Menik Farm:*

- Following advocacy by shelter agencies, camp authorities have agreed to permit IDPs to take the shelter kits or tents they have been using to their return areas.
- Between 8 and 21 May, 200 tents were decommissioned in Zone 2. Additional maintenance will be required in Zone 3, as the remaining people from Zone 4 will be transferred there.

# Joint Humanitarian Update

NORTH EAST | SRI LANKA

- IDPs continue to receive refill hygiene kits. However, the lack of hygiene materials continues to be a major problem from the IDP perspective, as only part of the original kit is being refilled. Agencies are exhausting NFI stocks and funding to continue support to Menik Farm.
- The NFI sector decided to postpone the NFI replenishment until the camp population stabilizes after return movements.

## *In Jaffna District (including the return areas)*

- The Governor of the Northern Province has requested government authorities and partners to focus on the construction of shelter and WASH facilities, as well as livelihood activities. The construction of transitional shelters for returnees was prioritized.
- Following the release of three Grama Niladhari divisions in the buffer zone of the Palaly High Security Zone, shelter agencies started construction of transitional shelters for returnees in collaboration with WASH partners.
- Returned refugees from India received NFI kits. Agencies are planning NFI assistance to long-term IDPs returning to their places of origin.

## **WASH**

### *In the Vanni return areas:*

- WASH activities continue in the return areas, with work focusing on community areas, schools and health institutions. Well-cleaning and rehabilitation are ongoing, whereas communities receive bowser supplies of water in areas where well-cleaning is yet to start.
- More agencies have received Presidential Task Force (PTF) approval to support the WASH response. Sarvodaya has started water bowsering, well-cleaning and construction, and repair of toilets in Poonakary, Karachchi, Kandawalai (Kilinochchi District), Oddusuddan and Maritimepattu DS divisions (Mullaitivu District). LEADS will start work in the Iyenkulam, Palyamurukandy, Amethypuram villages of Mullaitivu District. UNOPS is to start well-cleaning and construction of semi-permanent toilets in Poonakary and Karachi.
- Zonal Education Directors are carrying out WASH needs and cost assessments in the priority schools.
- Schools in return areas are receiving water tanks to facilitate safe drinking water to students.
- WASH partners have started to rehabilitate the water supply system in Mallavi hospital, including replacement of pipes and water tanks.

### *In Mannar District:*

- From 11-15 May, Public Health Inspectors and Hygiene / Health Promoters from the Mannar Regional Directorate of Health Services (RDHS) and WASH agencies participated in a Participatory Hygiene and Sanitation Transformation (PHAST) Training of Trainers (ToT) workshop. A similar training has been scheduled for 8-12 June for partners in Kilinochchi and Mullaitivu Districts.

### *In Jaffna District (including return areas):*

- The WASH technical working group is reviewing the design and standards for the WASH response. The sector agreed that any housing project must ensure that there is a sanitation component as per the design agreed by the WASH sector. However if the shelter agency cannot include WASH services, the participation of a WASH agency must be ensured. Furthermore, partners agreed that well-cleaning should be accompanied by water quality testing to ensure the water is safe for drinking. Agencies will try to reactivate the school health clubs to support the maintenance of WASH facilities in schools.
- On 27 April, the WASH sector organized a PHAST workshop for agencies and government partners, including RDHS colleagues. Participants focused on practical problems related to hygiene promotion, including the recent outbreak of dengue fever, and implementation strategies for hygiene promotion.
- On 12 May, the sector organized a knowledge management session on household water treatment at the National Water Supply and Drainage Board (NWS&DB) office. Partners shared a new technique for household water treatment, which effectively treats bacteriological contamination.

### *In Vavuniya District / Menik Farm:*

- On 16 May, raw water supply to Zone 0 was affected by a pump breakdown at Kallaru intake-1, compelling IDPs to use bowsered drinking water for washing purposes. The NWS&DB is working to fix the problem.

# Joint Humanitarian Update

NORTH EAST | SRI LANKA

- Water supply to Zone 6 fell to a daily average of 4.5 litres per person with the breakdown of an agency bowser. Two bowzers from a partner agency were redeployed to supply water to the zone.
- Zones 1, 2, 3 and 4 had sufficient water supplies at a daily average ranging from 44.7 - 107.4 litres per person for drinking and washing.
- A total 4,191 toilets have been decommissioned across all zones. Toilet repair is also ongoing.
- Agencies continued hygiene promotion activities in Menik Farm, with a special focus on reaching children through the Child Friendly Spaces.

## FOOD

*In the Vanni return areas:*

- Returnees in Kilinochchi and Mullaitivu Districts, except government servants, will continue to receive food rations for an additional three months, beyond the original cut off point of six months after resettlement.
- Students in three schools in Odusuddan DS division (Mullaitivu District) and ten schools in Pallai, Kandawali and Karachchi DS divisions (Kilinochchi District) will receive mid-day meals under the School Meals Programme (SMP). A total 15,767 students in 120 reopened schools in the return areas are now covered by the SMP, as follows:

District	DS Division	No of SMP schools
Kilinochchi	Karachchi	13
	Poonakary	20
	Kandawalai	02
	<b>Sub-total</b>	<b>35</b>
Mullaitivu	Oddusuddan	07
	Thunukkai	16
	Manthai East	13
	Maritimepattu	01
	<b>Sub-total</b>	<b>37</b>
Mannar	Mussali	08
	Madhu	02
	Manthai west	11
	<b>Sub-total</b>	<b>21</b>
Vavuniya	Venkalacheddikulam	01
	Vavuniya Town	01
	Omanthai	03
	Nedunkerny	22
	<b>Sub-total</b>	<b>27</b>
<b>Overall total</b>		<b>120</b>

Table 2: Schools in return areas covered by the programme to provide mid-day meals to students

- In Mannar and Vavuniya Districts pregnant and nursing mothers and children under five years of age, including those in return areas, received Corn Soy Blend (CSB) as a nutritional supplement through Maternal and Child Health clinics. The CSB allocation in Mannar District has been increased to 18 metric tons, while Vavuniya remains at 29.25 metric tons for a total caseload of 5,100 pregnant / nursing women and children under 5 years in Mannar and Vavuniya Districts.
- The government provided 11.5 metric tons of CSB to the Kilinochchi RDHS, for which agencies donated a storage container.
- In Kilinochchi and Mullaitivu Districts, agencies are planning Maternal and Child Health Nutrition interventions for an expected caseload of almost 4,000 pregnant and lactating mothers and children under five.
- A training session has been planned for implementing agencies on Food for Work (FFW). The Mannar Disaster Management Unit is collecting proposals for FFW activities for approval at central level.

*In Vavuniya District / Menik Farm*

- On 31 May, USAID support to food provision for IDPs in camps came to a close. WFP continues the daily food basket and is seeking other donor contributions.

# Joint Humanitarian Update

NORTH EAST | SRI LANKA

- As indicated below, nearly 250,000 IDPs in camps and returnees receive food support in the Northern Province, as of 21 May:

Districts	Families	Individuals
Kilinochchi	19,288	60,186
Mannar	8,365	30,165
Mullaitivu	12,189	35,776
Vavuniya	28,033	123,295
<b>Total</b>	<b>67,875</b>	<b>249,422</b>

Table 3: IDPs and returnees receiving emergency food assistance

## HEALTH & NUTRITION

*In the Vanni return areas:*

- Comprehensive Emergency Obstetric care services have been established at the Kilinochchi General Hospital. Work has started on an Obstetric care unit at the Mullaitivu General Hospital.

*In Mannar District:*

- Construction has been completed on maternity wards at the Chilavathurai Hospital and another two health centres.

*In Vavuniya District / Menik Farm:*

- In April, children suffering Severe Acute Malnourished (SAM) and Moderate Acute Malnourished (MAM) received one ration of plumpy-nut and High Energy Biscuits (HEBS). They will receive the next monthly distribution in the last week of May.
- Between 26-30 April, public health personnel in Vavuniya District received training in the standard Nutrition Rehabilitation Programme (NRP).
- The RDHS has recruited and trained 20 Rural Health Assistants, with technical support by agencies, to offset a shortage of midwives in resettled communities.

*In Jaffna District (including return areas):*

- Undernourished IDP and host community children received therapeutic and supplementary feeding. 400 children received BP100 and 4,354 moderately undernourished received High Energy Biscuits through all clinics in Jaffna District.
- Expectant mothers in the Kopay Medical Officer of Health (MOH) division, identified as undernourished by agency partners, participated in a food demonstration and nutrition education programme.

## PROTECTION (including CHILD PROTECTION)

*In the Vanni return areas:*

- Support for authorities to re-establish / strengthen institutions and services targeting persons with specific needs, particularly women, children, the elderly and persons with disabilities, is needed.
- IDPs with host families are facing difficulties in accessing livelihood opportunities in the host communities. For example, some fishing families from Mullaitivu District report that they were unable to obtain fishing licences while in displacement in Jaffna District, making it difficult to support their stay particularly for those who rent accommodation. Many returnees are aware of conditions in the resettlement areas through previous visits or liaison with communities already settled. As a result of insufficient services, some IDPs choose to return without family members, who have found employment in host communities, or children attending host schools.

# Joint Humanitarian Update

NORTH EAST | SRI LANKA

## *In Vavuniya District / Menik Farm*

- Support is required to maintain essential protection services in monitoring, child protection and Sexual and Gender-Based Violence (SGBV) response activities for the residual IDP population in camps. Agencies continue to support service provision from the Department of Probation and Child Care Services and the Ministry of Social Services and Social Welfare in Menik Farm.
- With a few exceptions, the level of basic water/sanitation, shelter, education and other services in Menik Farm continues to decrease, impacting protection challenges.
- Camp authorities have introduced measures to prevent IDPs from selling portions of their food rations in the market. This may have consequences on coping mechanisms, as the sale of food outside Menik Farm allowed IDPs to purchase other indispensable items, including infant milk powder and complementary food items no longer distributed in the camp.
- The pass system continues to be applied with variations in procedures across zones. In Zone 2, families are required to leave one person behind in the camp. Agencies encourage increased awareness on the part of IDPs and camp authorities on the modalities of the pass system.
- Discussions are underway with the Ministry of Social Services and Social Welfare to organize a series of awareness sessions on SGBV in Menik Farm.
- The National Child Protection Authority (NCPA) and UNHCR co-chaired the periodic SGBV case conference to address referral to support services for specific cases.
- On 17 May, the Vavuniya GA chaired the District Child Development Committee (DCDC) with representatives of the main national child protection authorities, including the Department of Probation and Child Care Services, the Ministry of Social Services and Social Welfare, National Child Protection Authority and Child Promotion Officers. The GA is supporting initiatives targeted to the protection of women and children, particularly the establishment of a safe house for victims of violence, and asked the support of the international community in this Endeavour.
- Partners are developing referral mechanisms to link the most vulnerable families to service providers in vocational training, livelihood assistance and education support. This is essential to support initiatives to reintegrate released suspected former child combatants, prevent institutionalization of children and assist children with disabilities.
- On 21 May, the Disability Forum discussed a draft mapping of service providers. A Technical Working Group on reintegration of disabled returnees was established at the District Child Development Committee meeting. Agencies are supporting a programme by the Ministry of Social Services and Social Welfare to increase the assistance available to disabled people, including mobility devices, cash grants and transport support.

## *In Jaffna District (including return areas):*

- Around 600 Vanni IDP families residing in the Ramavil Camp are awaiting permission to return to Vadamarachchi East. The return was anticipated for May but was postponed.
- On 18 May, during a release ceremony in Jaffna, a total of 228 separatees were released from rehabilitation centres in Vavuniya and Jaffna Districts.

## **MINE ACTION**

- Between 1 January 2009 and 23 May 2010, demining operators have cleared 372 sqkm of land in the Northern Province. Of this total, 358 sqkm was Battle Area Clearance of Unexploded Ordnance (UXO) and the remainder minefield clearance using mechanical and manual methods.
- The Sri Lanka Army Humanitarian Demining Unit (SLA-HDU) has a capacity of 1,070 deminers. Additionally, 130 individuals completed their basic manual demining course on 15 May.
- DDG has a total capacity of 257 deminers. 27 new deminers and 10 medics were trained recently.
- Sarvatra has trained 30 new deminers.
- In Mullaitivu District, MAG and the SLA-HDU have started non-technical surveys in eight Grama Niladhari divisions of Puthukudiyiruppu.
- Agencies are partnering with the SLA-HDU to carry out Mine Risk Education (MRE) activities in all districts where resettlement is taking place. MRE and demining agencies held coordination meetings in Mullaitivu and Kilinochchi Districts. Participants highlighted the issue of people increasingly moving into areas near hazardous areas, either to live or for livelihood activities. Agencies developed implementation plans to

# Joint Humanitarian Update

NORTH EAST | SRI LANKA

increase community liaison, including a proposal for greater involvement of community police in these initiatives.

- In Mullaitivu District, MRE agencies opened a mine and sign garden in the Wattapallai Temple area.

## EDUCATION

*In the Vanni return areas:*

- In Mullaitivu District, six schools in Maritimpeattu DS division reopened recently, paving the way for 1,200 returnee students to resume their education.

*In Vavuniya District / Menik Farm:*

- There are 14,103 students enrolled in schools in Menik Farm and 466 teachers, including IDPs and volunteers from outside the camp, according to an 8 May survey. A shortage of teachers continues to affect the provision of education services in Menik Farm.
- In Vavuniya District, separatee camps remain co-located in two schools, affecting the educational environment for an estimated 700 students.

*In Jaffna District (including return areas):*

- A total of 119 teacher-counselors from Jaffna, Thenmarachi, Jaffna Islands and Vadamarachchi educational zones received training on psycho-social support to children.
- Education agencies will take steps to orient teaching staff on the concept of Child Friendly Schools.

## EARLY RECOVERY

- Agencies completed a joint rapid assessment of early recovery needs in 22 resettlement villages in Vavuniya District prioritized by the government.
- Initial findings from villages in Vengalachcheddikulam DS division indicate that:
  - 61 per cent of the total families are permanent residents, 23 per cent are returnees and 15 per cent are IDPs living with host families.
  - There are 644 permanent houses available and few require renovation. Out of the 357 semi-permanent houses (traditional houses), one is slightly damaged. IDPs have built 246 temporary shelters with tin / plastic sheets. Families living in these shelters requested semi-permanent shelters. Currently, agencies are building transitional shelters in the Mukathankulam and Menik Farm villages and permanent housing in Kanthasaminagar and Kankankulam.
  - Water is one of the main issues in these villages. During the dry season, water scarcity affects cultivation. Of the 584 existing wells, 439 wells are operational, the majority privately owned. The wells need to be deepened to ensure adequate water collection. Most newly resettled families do not have toilet facilities.
  - Schools require furniture, laboratory equipment, library books, fencing, toilet facilities, water supply and teachers' quarters, and school uniforms and stationery for children.
  - Newly resettled families have limited cash resources and experience difficulties in finding jobs. IDPs in host families have little or no access to land for cultivation. Most of the population in these villages are unskilled labourers involved in the agricultural sector and depend on daily wages.
  - IDPs with host families and returnees have received dry rations since November / December 2009 through Multi Purpose Co-operative Societies (MPCS). They are finding it difficult to access complementary food and remain dependent on food and other assistance.

# Joint Humanitarian Update

NORTH EAST | SRI LANKA

KILLINOCHCHI, MULLAITIVU, MANNAR & VAVUNIYA DISTRICTS				
Sector	Organization	Location	Activity	
		Manthai West DSD		
	UNHCR	<i>Vavuniya District:</i> Vavuniya and Menik Farm	Monitoring and referral in IDP Camps, Welfare Centres, and Host Families ongoing. Monitoring continues of IDPs being resettled to other areas through the UC grounds staging site in Vavuniya town.	
		<i>Killinochchi, Mullaitivu and Vavuniya (Vavuniya North DSD) Districts</i>	Returnee monitoring ongoing in the field and at transit areas in the Vanni.	
		<i>Vavuniya, Killinochchi and Mullaitivu districts</i>	Monitoring and community work relating to SGBV ongoing.	
Child Protection	Save the Children with NGACDO	<i>Vavuniya District:</i> Menik Farm -Zone 4 (Block F1 and F5)	Conducted two environment promoting activities to clean the camp premises, play areas etc with the participation of the 55 children. Children organized some sports games and cultural events to celebrate the new year festival and about 185 children participated with the event. These were conducted in collaboration with the respective Grama Seva officers and Zone managers. Conducted with the support of camp management.	
	Save the Children with FIRM	<i>Vavuniya District:</i> Menik Farm -Zone 2 (Block 07, 12, 23, 28, 34 and 38)	Around 725 displaced children were engaging with play and recreational activities at the child friendly spaces. CFS activities are carried out with the support of camp management.	
	Save the Children with FOSDO	<i>Vavuniya District:</i> Menik Farm -Zone 3 (Block 09 and 28 ) and Zone 4 (Block D2 and D3)	Around 750 displaced Children are actively participating over the play and recreational activities at the child friendly spaces. Children got an immense opportunity to spend their leisure time in meaningful way due to the CFSs. CFS activities are carried out with the support of camp management.	
	Save the Children in Sri Lanka		<i>Killinochchi District:</i> Karachchi DSD-Periyaparanthan	Children and parents got initiatives to conduct a community development programme conducted in collaboration with RDS and respective GS to clean the Early Childhood Care and Development (ECCDC)/ CFS premises. 94 Children and 22 parents activity participated.
			<i>Killinochchi District:</i> Karachchi DSD-Vevganathanagar	Children got initiatives to conduct a cultural programme at the CFS with the support of parents. 85 Returned children actively took part the event and these activities help to develop the life skills of the children such as leadership qualities, aesthetic skills, organising capacities, team work spirits etc.
			<i>Vavuniya District:</i> Vavuniya North DSD Muththumary Nagar, Puthur Junction, Sinnadampan and Periyakulam	Children are enthusiastically participating at the CFSs and engaging with play and recreational activities. 102 returnee children benefited with the CFS centres. CFSs are being conducted in collaboration with the respective GSs.
			<i>Mannar District:</i> Mussali DSD-Pichasavaniankulam	Provided one CFS Volunteer Incentive kit to a volunteer.
	UNICEF		<i>Vavuniya District:</i> Menik Farm:	A total of 108 CFSs (73 supported by UNICEF), of which 105 have physical structures, continue to operate, providing activities for almost 12,000 children. During the reporting period seven CFSs were closed down.  Community structures have largely collapsed due to the resettlement. Regular changes of CFS trained volunteers, due to returns, have had a notable impact on the quality of CFSs. CFS partners have limited their operations and have focused on monitoring, mentoring and coaching during the reporting period.  Funding to support CFS interventions for about 80 CFSs ended on 30 of April 2010. However UNICEF has decided to continue its support for 73 CFSs from May 2010 to Aug 2010.  Key volunteers from the Child Focused Unit (CFU) in Zone-1 have now been resettled. The CFU space has therefore been moved to the MoSS library in Block-H.
			<i>Killinochchi Mullaitivu Mannar and Vavuniya Districts</i>	<b>MRE:</b> During the period CTF jointly with SLA HDU reached an estimated total of 15,298 individuals with MRE messages in all four districts.
